

Rutgers Learning Centers
is recruiting undergraduate
students for the:

Preparation in STEM Leadership Program

- Are you a peer leader at Rutgers in a STEM discipline?
- Would you like to earn money and receive advanced training and feedback for your position?

If you answered yes to both questions, then apply for the Preparation in STEM Leadership (PSL) Program!

The PSL program provides an opportunity for STEM peer leaders to earn a scholarship for participating in professional development workshops and a pedagogy course

Benefits

- Earn a \$500 scholarship each fall and spring semesters
- Improve leadership, communication, and group management skills
- Gain professional development experience and feedback on your progress

Program Requirements

- Participate in a 3-credit, 300-level pedagogy course during Fall 2015
- Receive continuous professional development training and assessment with feedback and mentoring
- Attend seminars/workshops led by professional trainers from STEM industry

Eligibility Requirements

You must be an undergraduate in a peer instructional leadership position (tutors, study group leaders, learning assistants, teaching interns, peer mentors, supplemental instruction leader) for a Science, Technology, Engineering, or Math discipline in a Rutgers program (examples listed below)

- Department of Chemistry and Biochemistry's Teaching Internship Program
- Department of Life Sciences Study Group Leaders
- Department of Mathematics Peer Mentors
- School of Engineering, Office of Student Services Tutors
- Athletics
- Douglass Project
- EOF programs
- Student Support Services
- LSAMP
- SAS Honor's Program
- ODASIS
- Learning Center Tutors and Study Group Leaders
